

HUGO & BORG

SPECIFICATIONS GUIDE

We’re making it our mission to be the people’s favorite cabinetry company. How? By building the highest quality, trend-leading cabinets and by providing the friendliest, most helpful service and support in the industry.

Hugo&Borg at a glance:

Limited Lifetime Warranty

Quality and durability are guaranteed.
We make our products to last.

Exceptional Service

Our friendly, expert team knows
kitchens inside and out! We’re
here to help every step of the way.

Professional Design Services

Our in-house design team provides detailed
design services for all of your project needs.

Quality and Value

We combine high product
specifications with industry leading
manufacturing processes to bring you
cabinets at a great value.

INFORMATION

2020

Hugo&Borg cabinetry can be priced and designed in the industry-leading 2020 software.

REACH OUT

You can e-mail us at info@hugoandborg.com or call **1.833.748.HUGO (4846)**. Our hours of operation are 8:00 AM – 6:00 PM EST, Monday to Friday.

FREE DESIGN

Work with our design team at no cost to create a layout that works for your project.

SHIPPING

Cabinets ship fully assembled and ready to be installed.

WARRANTY

Our cabinets are covered under our limited lifetime warranty. For more details, download a PDF of our warranty at <https://www.hugoandborg.com/limited-lifetime-warranty>.

MATERIAL SPECIFICATIONS

MATERIAL CHARACTERISTICS:

We offer a diverse selection of materials, including premium painted MDF, textured melamine, DLV laminates, and several wood species, each with its own distinctive characteristics. All our paints and stains are finished with a UV-protective top coat, which helps slow aging and fading caused by sun exposure.

Our natural wood options showcase unique grain patterns and color variations that reflect the environment in which the wood grew. Factors such as soil minerals, climate, and moisture influence these characteristics, resulting in one-of-a-kind cabinetry pieces. While we carefully match wood during production, the inherent variations mean no two pieces will ever be identical in pattern or hue.

Wood is a living material and may expand or contract with changes in humidity and temperature—natural behaviors that highlight its authenticity rather than defects. We use premium stains and finishes to enhance the beauty of each wood species and protect it against daily wear. Over time, exposure to light may deepen the wood's color, a normal and expected process.

Our engineered materials, such as textured melamine and DLV laminates, are designed for durability and easy care, offering alternatives that are resistant to warping, scratches, and stains. For optimal results, we recommend regularly updating product samples to reflect natural changes over time and following proper care guidelines to maintain the longevity of your cabinetry. Variations in natural materials are part of their charm and are not grounds for replacement or credit.

In line with our commitment to continuous product improvement, we may adjust design specifications and materials as necessary. If different materials are used, they will be of equal or superior quality, maintaining our high standards.

BIRCH

Birch wood is known for its smooth, even grain and light, creamy color, ranging from pale yellow to reddish-brown hues. It often exhibits small knots, mineral streaks, or subtle variations in tone, which add natural character to its appearance. These features make birch a versatile and popular choice for cabinetry, blending seamlessly into both traditional and modern designs.

LAMINATE (DLV)

Our laminated five-piece doors are crafted with wraps that contour around each linear component and insert panel, which are then assembled into a cohesive door or drawer front. This process enhances the door's design, achieving clean lines and well-defined features for a polished, stylish appearance.

MDF

Our one-piece MDF doors are expertly shaped using precision routers and advanced tooling to create exact profiles and clean, defined edges. Each door is finished with premium polyurethane paint, delivering a smooth, durable surface that resists wear and maintains its polished look over time. This process ensures a high-quality product that combines precision craftsmanship with lasting performance.

TEXTURED MELAMINE

Our textured melamine doors are crafted using advanced manufacturing techniques to create a realistic woodgrain texture with consistent quality. The melamine surface is fused to a dense core, ensuring resistance to warping. Built for durability, these doors are scratch-resistant, moisture-resistant, and easy to maintain, making them perfect for high-traffic areas.

DRAWER BOX

White melamine drawer box

- Melamine finish
- 1/2" melamine particle board drawer bottom
- 3/4" extension
- Non-soft close

Hugo&Borg cabinets are CARB2 compliant: certified by the California Air Resources Board (CARB) to emit low levels of formaldehyde and other volatile organic compounds (VOCs).

QUALITY & CARE GUIDE

QUALITY AND CARE GUIDE

Hugo&Borg cabinetry is manufactured using high-quality materials. Our fine finishes are very durable and moisture resistant, but they are not moisture-proof. Due to the nature of real wood and our 6-step polyurethane paint on MDF, care must be taken to ensure durability for a lifetime. Use the following guidelines to assist you in maintaining the beauty of your new cabinetry.

When the installation is complete, vacuum and wipe down all interiors and exteriors with a soft dampened cloth to remove all dust. Pay special attention to the drawer glides - dust and wood particles should be removed to ensure your glides slide smoothly.

The high-quality furniture finish of your cabinetry is designed to withstand daily use. All surfaces may be cleaned with a soft dampened cloth and warm water. For a difficult situation, use a soft dampened cloth with mild dish soap (not detergent). After cleaning, dry immediately with another soft dry cloth. Do not use harsh chemicals or ammonia-based products as they may cause discoloration of the finish.

It is important to wipe up spills from your cabinetry as they occur. Give special attention to the product around the sink and dishwasher. Avoid draping damp or wet dish towels over the doors of the sink base cabinet.

Prolonged exposure to spills, including food, oil, grease, water, coffee, tea, food colorings, and/or other liquids may cause permanent discoloration or damage to the finish. Hugo&Borg's Lifetime Limited Warranty does not apply in cases where the product has been exposed to the above elements, thus resulting in damage to the product.

DO'S AND DON'TS

CLEANING PRODUCTS TO AVOID

The following cleaning products are to be avoided as damage may occur:

- Harsh detergents, strong soaps, abrasive cleaning products such as tub and sink cleansers, scouring powder, scouring pads, steel wool or self-polishing waxes.
- Sponges or dishcloths. They may contain particles that could scratch your cabinets, or they may contain food and oil residue or remnants of harsh cleaning solutions.
- Solvent-based or petroleum-based products such as mineral spirits, nail-polish removers or paint thinners.
- Ammonia or cleaning products that include ammonia.
- Bleach or cleaning products that include bleach.
- Silicone-based cleaning, waxing, or polishing products.

QUALITY & CARE GUIDE

WAXING AND POLISHING

Waxing is not required or recommended. Over time, waxing and polishing compounds may build up on the surface of your cabinets and cause a hazy, streaky or yellowed appearance. This wax build-up is very difficult to remove.

CLEANING GLASS DOORS

Extra care is required when cleaning glass doors. Spray an ammonia-free glass cleaner on a clean, soft, lint-free cloth or paper towel. Do not spray cleaner directly on the glass. It could seep behind the window dividers and cause damage.

AVOID HEAT DAMAGE

The heat generated when using an oven’s self-cleaning feature is much greater than during normal cooking. If this heat escapes from the oven, it can damage your cabinets. While this is a rare circumstance, you can minimize the risk of cabinet damage by removing cabinet doors and drawers nearest the oven before using its self-cleaning feature.

AVOID LIGHT DAMAGE

Exposure to direct sunlight tends to darken the color of natural wood products. Sunlight can also fade painted MDF and laminated surfaces. You should consider draperies or blinds to shield your cabinets from direct sunlight.

WARRANTY

LIMITED LIFETIME WARRANTY

All products must be inspected immediately upon receipt for any physical damage, missing boxes or components. Any visible damage to the goods or missing packages must be noted to the carrier and marked on the bill of lading. These claims must be submitted within 14 days of receipt.

WHAT THIS WARRANTY COVERS:

The manufacturer warrants its products to be free from substantial defects in materials and workmanship from the original date of purchase under normal home use. This warranty is offered only to the original consumer purchaser and may not be transferred. The manufacturer is only responsible for the actual purchase price.

HOW LONG THE WARRANTY LASTS:

Coverage for all wall cabinets, base cabinets, pantry cabinets, door fronts, drawer fronts, shelves, cover panels, fillers, moldings, hinges, drawer parts (rails and soft-close mechanisms), adjustable feet and storage accessories are warranted to the original purchaser for as long as they own their home. This warranty is not transferable.

WHAT THE MANUFACTURER WILL DO UNDER THE WARRANTY:

During the warranty period, The manufacturer at its discretion, will repair or replace any part or product that proves to have substantial defects in materials or workmanship, or the manufacturer will provide an equivalent replacement product. The manufacturer reserves the right to change specifications in design and materials without notice and with no obligation to replace products that were previously manufactured.

IMPLIED WARRANTIES:

The manufacturer disclaims any implied warranty of merchantability, and there are no warranties that extend beyond the descriptions on the face hereof. If any implied warranty arises under applicable law, then any and all implied warranties are limited in duration to the duration of this written warranty to the extent allowed by applicable law. Some jurisdictions do not allow exclusions or limitations of incidental or consequential damages or exclusions or limitations of implied warranties, therefore, the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from jurisdiction to jurisdiction.

AGING, MANUFACTURING, NATURAL CHARACTERISTICS AND APPEARING IN PRINTED MATERIALS:

Because of the varying natural characteristics of wood and the effects of ageing, product shown in displays and/or printed materials (such as product photos printed in brochures, flyers, catalogs, etc.) will not be an exact match to the cabinetry you will receive. Depending on the wood grain characteristics, the age of a sample and the environment of the retail showroom, samples will show some degree of variation from a new product. In addition, you should not expect all doors, drawer fronts, cover panels, trim or molding to match exactly in either finish or grain. Variation in wood grain is normal and unavoidable. In addition, it is not possible to exactly match our colors in printed materials. Therefore, you should view the actual samples when making your color selection. Depending on the wood grain characteristics, the age of a sample and the environment of the retail showroom, samples will show some degree of variation from a new product. WARRANTY

NOTES

WHAT THIS WARRANTY DOES NOT COVER:

This warranty does not cover any problems or damage which result from improper transportation, improper installation, mishandling, misuse, abuse, neglect, abnormal use, commercial use, improper maintenance, unauthorized repairs, accidents, or acts of God, such as hurricanes, fire, earthquakes or floods. The warranty and any applicable implied warranties do not cover incidental or consequential damages arising from any defects in the product such as labor charges for installation or removal of the product or any associated products. The manufacturer is not responsible for any installation charges. This warranty does not cover defects or damage caused by normal wear and tear, alterations, environmental conditions, humidity absorption, or mold. In addition, variations in wood grain, finish color or ageing are not considered defects and are not covered by this warranty.

HOW TO OBTAIN WARRANTY SERVICE:

If you need replacement parts or would like to make a warranty claim, please contact our Customer Service Representative by email at **info@hugoandborg.com** or call us at **1-833-748 HUGO (1-833-748-4846)**.

All warranty claims must include the model number of the product, a copy of the original receipt, and the nature of the problem. In addition, the manufacturer may at its discretion require inspection of the installation site, photography, or authorize the prepaid return of the claimed defective part. Merchandise not pre-approved for return will not be accepted and the associated claim not accepted. If upon inspection you find your product is damaged or missing parts, it is not necessary to return the unit to the store of purchase. Please contact the manufacturer.
